

## **Meeting Notes 11/1/18**

**Team:** afterschoolspecials

**Attendees:** Haley, Bridger, Victoria, Cassie, Mohammad, Zheng

**Date:** Thursday November 22nd, at 4:00 pm

**Meeting Agenda:** The team met today to hold an agile meeting and discuss the progress that has been made thus far. Since it is mid-semester, most of the team was busy with midterms this past week; however the team discussed that this weekend the initial page after login would get set-up and others will start working on the design of the database. The team also needs to continue to learn reactJS, so the development process can continue.
